

HEATHER PEHRSON -

I SHARE YOUR VALUES - As a wife and mother of four children, my concerns for safety and community are common to Bluffdale families. I have served as a Cub Scout leader, PTA board member, as well as in various church positions. I am committed to solutions that make Bluffdale's future as bright as it's potential.

I SHARE YOUR VISION - Vision is being able to see the end before you begin *and* knowing how to get there. My education in Civil Engineering makes me uniquely prepared to do just that. In the next four years, the City Council will have the opportunity to revise its General Master Plan. It will also deal with the continued challenge of shrinking revenue that makes it difficult to maintain our beautiful city and led to the introduction of a 6% energy tax in 2009. We cannot let that happen again. These opportunities and challenges must be met with vision and leadership.

I WILL BE YOUR VOICE - While working for a senator on Capitol Hill and as an elected Utah State Delegate I gained a great appreciation for representative government. I will be a city councilwoman who hears and represents the citizens.
