

TY NIELSEN - My name is Ty T. Nielsen. I was born and raised in South Jordan when it was still a farming community. I am the eleventh of thirteen children; I was raised on twenty acres and loved the freedom of the outdoors. I watched as my neighbors sold out and houses were put on the farms. I saw that homes were torn down and stores replaced them I even helped build some of the homes while working during my high school years. I moved to Bluffdale so I could have my horses and my hobby farm. I feel obliged to try and keep it that way. I know that we need diversified housing because homes are hard to get and good jobs are harder, so our children have somewhere to live to work and build up their equity.

I am just a simple man who tries to be a good and honest man. I still just want to be left alone so I can have what my father had to raise me with. I know those days are gone.
